

Breakthroughs in Medicinal Chemistry: New Targets and Mechanisms, New Drugs, and New Hopes, 2nd Edition

Guest Editors:

Prof. Dr. Rafik Karaman

Prof. Dr. Paola Fossa

Dr. Valeria Francesconi

Deadline for manuscript
submissions:
closed (30 November 2024)

Message from the Guest Editors

Dear Colleagues,

Following the popularity of the last Special Issue edition, we have produced a second Special Issue version. We are inviting the submission of reviews and original research articles in medicinal chemistry that cover hot topics in the discovery, design, and development of new medicines, such as new agents for the treatment of Alzheimer's disease, Parkinson's disease, schizophrenia, cancer, and COVID-19, for publication in the Special Issue "Breakthroughs in Medicinal Chemistry: New Targets and Mechanisms."

Furthermore, studies devoted to molecular modeling, molecular dynamics, QSAR, and AI that improve the understanding of drug design and action are encouraged. Articles investigating how a drug's chemical structure impacts its pharmacodynamic and pharmacokinetic features are also welcome. We invite eminent and young academics from around the world to submit papers to this Special Issue.

Prof. Dr. Rafik Karaman

Prof. Dr. Paola Fossa

Dr. Valeria Francesconi

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
