University, Fukuoka, Japan

**Dr. Mohamed El-Shazly**

Department of Pharmacognosy,  
Faculty of Pharmacy, Ain-Shams  
University, Organization of  
African Unity Street, Abassia,  
Cairo 11566, Egypt

Deadline for manuscript  
submissions:

**closed (22 December 2023)**

### Message from the Guest Editors

In recent years, there has been growing recognition of the interconnectedness between human, animal, and environmental health. The holistic perspective, known as the "One Health Approach", emphasizes the interdependencies and shared vulnerabilities among these three domains. The "One Health Approach" recognizes that health is a complex web of interactions, encompassing not only the absence of disease but also the promotion of physical, mental, and environmental well-being. By considering the interconnectedness of humans, animals, and the environment, this approach aims to tackle health challenges in a comprehensive and sustainable manner. Within this framework, harnessing the potential of plant metabolites and plant extracts has emerged as a promising avenue for addressing various health challenges and promoting the well-being of all living organisms as these natural compounds can offer multifaceted benefits across different domains.

an Open Access Journal by MDPI

Münster, Germany

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
