Deadline for manuscript  
submissions:

**closed (31 October 2021)**

### Message from the Guest Editor

Dear Colleagues,

While the medicinal properties of cannabis have been recognised for centuries, the last two decades have seen an explosion in our understanding of the role of the endocannabinoid system and the potential therapeutic benefit of cannabinoid-based medicines.

This Special Issue aims to provide insight into our current understanding of the field and highlight new findings. As such, we invite scientists to submit original manuscripts on basic or clinical research on the endocannabinoid system, phytocannabinoids, or cannabis preparations in any research area. Particularly welcome are investigations looking at novel compounds or novel sites of action. Review articles are particularly welcome.

Dr. Michelle Roche

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
