Deadline for manuscript
submissions:

closed (31 December 2021)

Message from the Guest Editor

The Editorial Board of *Molecules* invites you to contribute to a Special Issue entitled “Functional Foods and Nutraceuticals 2021”. Although there is still no consensus on an exact definition of the term, any food claimed to have a health-promoting and/or disease-preventing property beyond the basic nutritional function of supplying nutrients is called a “functional food” or “medicinal food”. Sometimes, functional foods are called nutraceuticals, a portmanteau of nutrition and pharmaceutical, which could include food that has been genetically modified. The general category of Functional Foods and Nutraceuticals includes processed foods made from functional food ingredients such as bioactive proteins (peptides), polysaccharides, lipids, phytochemicals (polyphenols and carotenoids), or foods fortified with health-promoting additives (e.g., “vitamin-enriched” products), as well as fresh foods (e.g., vegetables) that have specific health claims attached. We are pleased to invite you to publish in this Special Issue in the form of full articles, communications, or reviews.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
