submissions:

closed (30 April 2021)

Message from the Guest Editors

Dear Colleagues,

Interfacial chemistry is a field with unlimited potential, as the chemical and physical properties and processes at the interfaces are the scientific basis for so many of the technologies that affect our lives, creating new opportunities. The chemistry of the living systems is largely controlled by biomembranes, but their complexity ensures that increasing efforts are devoted to creating and characterizing artificial model systems such as micelles, reverse micelles, micro- and macro-emulsions, liposomes, and so on.

Research manuscripts and reviews are welcome. This Special Issue on interfacial chemistry aims to provide researchers with a state-of-the-art of the different phenomena that take place at phase boundaries or interfaces, bringing readers the latest developments in the field.

Dr. Carlos Bravo-Díaz

Dr. Sonia Losada-Barreiro

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical
Biology and Phytochemistry,
University of Münster,
Corrensstrasse 48, D-48149
Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
