Message from the Guest Editors

Dear Colleagues,

This Special Issue of *Molecules* is dedicated to recent advances in applied chemistry research areas and comprises a diverse selection of exclusive papers from the Editorial Board Members (EBMs) and Topical Advisory Panel Members of the Section “Applied Chemistry”. It focuses on highlighting recent interesting investigations conducted in the laboratories of our section’s EBMs and aims to represent our section as an attractive open access publishing platform for applied chemistry research.

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.
