Engineering, Northwest A&F
University, Yangling 712100,
China

Deadline for manuscript
submissions:

31 August 2024

Message from the Guest Editors

Dear Colleagues,

Plant food raw materials and plant-based foods are rich in nutrients and nutritional and functional factors, being favored by consumers and widely concerned by scholars worldwide. This Special Issue aims to highlight the bioactive compounds in plant extraction and their health effects and mechanisms. This Special Issue's topics include, but are not limited to, the following:

- Research on new methods for extracting and identifying plant active components.
- The functional properties of plant food raw material and plant-based foods and their core bioactive compounds' excavation.
- Excavation of new bioactive compounds in plant food raw material and plant-based foods.
- The absorption and metabolism of bioactive compounds in plant food raw material and plant-based foods.
- Functional evaluation and molecular mechanism of bioactive components in plant food raw material and plant-based foods.

Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
