

Recent Advances in the Synthesis and Biological Studies of Chemical Pesticides

Guest Editor:

Prof. Dr. Chengxia Tan

College of Chemical Engineering,
Zhejiang University of
Technology, Hangzhou, China

Deadline for manuscript
submissions:

closed (31 July 2024)

Message from the Guest Editor

Dear Colleagues,

Chemical pesticides play a vital role in solving food problems. However, with the gradual deepening of people's awareness of environmental protection, pesticides with high efficiency, low toxicity, and environmental protection have become an inevitable trend in the creation of new pesticides. Undoubtedly, nitrogen- and oxygen-containing heterocyclic structures are important features of synthetic pesticides due to their high efficiency, multiple biological activities, and diversity of possible substituents.

Manuscript adopted by *Molecules* may additionally include the following types of papers: articles, reviews, communications, brief reports, etc.

Prof. Dr. Chengxia Tan
Guest Editor

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Biology and Phytochemistry,
University of Münster,
Corrensstrasse 48, D-48149
Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
