Message from the Guest Editors

Dear Colleagues,

In 2020, Dr. Philippe Jeandet, Professor of Food Chemistry at the Faculty of Sciences of the University of Reims, has his 60th birthday. In recognition of his outstanding lifetime scientific contribution, we have arranged a Special Issue to which you are invited to submit a manuscript.

In this Special Issue, we welcome experts to contribute their original articles exploring the biological activity and structural diversity of chemical entities derived from mother nature. Review articles, particularly those dealing with the themes mentioned above, are also welcome.

You are welcome to visit the [website](#) and submit your paper [here](#). Any questions please feel free to contact Larry Li (larry.li@mdpi.com), the managing editor of the special issue. We look forward to receiving your contribution.

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.
