Message from the Guest Editors

Dear Colleagues,

This Special Issue is related to the NanoTech Poland 2022, the 12th international conference (<http://nanotechpoland.amu.edu.pl/>) organized by the NanoBioMedical Centre, Adam Mickiewicz University Poznan, which will be held on 1-3 June 2022 in Poznań.

The scope of the conference, and hence the scope of this Special Issue, will cover all aspects of novel nanoparticles, nanocomposites, and hybrid nanostructures and their application in energy, electronics, photonics, biomedicine, and the environment. Participants of the conference, as well as all researchers working in the field of nanoscience and nanotechnology, are cordially invited to contribute original research papers to this Special Issue of Molecules. This issue is multidisciplinary and welcomes submissions across physical, chemical, biological, materials, and engineering sciences.

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.
