Pharmaceutical and Agricultural
Sciences (DoCPAS), University of
Ferrara, 44121 Ferrara, Italy

Deadline for manuscript
submissions:

closed (15 December 2022)

Message from the Guest Editor

Taking into accounts the various approaches to nanotechnology presented in the previous Special Issues, “Preparation, Characterization, and Effect of Lipid Nanoparticles Used in Different Application Fields I and II”, the third installment in this series will provide an open forum with which to elaborate upon these themes. The primary aim of this issue remains to encourage the exchange of research and findings in the field of nanotechnology. Submissions may be in the form of original research or review articles and may focus on a range of issues, such as the production, characterization, structure and innovative aspects of lipid nanoparticles, possibly presenting new preparation methods, advantages, disadvantages, lipid nanoparticles functionalization and new applications. Studies with multidisciplinary inputs offering innovative methodologies or insights are also welcome.

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
