Natural Sciences, Department of  
Chemistry, Institute for Inorganic  
Chemistry, University of Cologne,  
GreinstraÙe 6, 50939 Köln,  
Germany

Deadline for manuscript  
submissions:

**30 June 2024**

### Message from the Guest Editor

Dear Colleagues,

In the next 20 years, the world is facing huge challenges, as the climate crisis and the need for nutrition and medical care for a growing population under the limitation of sustainable development take hold. At the same time, in some parts of the world, the population is not growing anymore but aging. This has socio-economic consequences and also calls for improved medical care. These problems might be frightening. However, I do not call the upcoming situation “catastrophic”, but choose the term “challenge” as I believe that science, engineering, and medicine will find solutions. For me as an Inorganic Chemist, an important question is whether Inorganic Chemistry will be an important part of the urgently needed problem-solving processes. Or to put it in the words of the title: “Are we relevant” in our research?

In this Special Issue of *Molecules* we will address this question by presenting review articles on recent developments and new directions in Inorganic Chemistry research. I am sure that this issue will show that we are “relevant”.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
