

Materials Chemistry in China—Second Edition

Guest Editors:

Prof. Dr. Afang Zhang

International Joint Laboratory of Biomimetic and Smart Polymers, School of Materials Science and Engineering, Shanghai University, Shanghai 200444, China

Prof. Dr. Bangjing Li

Key Laboratory of Mountain Ecological Restoration and Bioresource Utilization, Chengdu Institute of Biology, Chinese Academy of Sciences, Chengdu 610041, China

Deadline for manuscript submissions:

31 December 2024

Message from the Guest Editors

Novel materials have formed the intriguing basis for various areas to have great impact on our society, ranging from electronic, to bio-related, to healthcare applications. These materials are not only supportive for innovation in fundamental research but also, more importantly, for creating new generation of electronic devices or actuators, for biomedical supports and drug supports, and used as intelligent materials. Studies on the relationship between molecular structures and material properties are welcome for submission. New concepts for materials chemistry are also highly welcome.

This Special Issue continuously focuses on the new frontiers of materials chemistry in China. It is devoted to reporting on either theoretical or experimental studies on synthesis, properties, characterization, and applications of various materials. We invite researchers to contribute original articles and reviews.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
