Deadline for manuscript  
submissions:

**closed (15 August 2021)**

### Message from the Guest Editors

Dear Colleagues,

The biomaterial scientists in China have been spearheading efforts at the forefront of biomaterials, emphasizing therapies of medical technology and regenerative medicine in the clinical disciplines, as well as diagnostic systems that rely on innovative contrast and sensing agents. Motivated by the observation of increasing interest and emerging innovative research output from Chinese laboratories, this Special Issue aims at showcasing the latest advances in this highly interdisciplinary field. This Special Issue of *Molecules* aims to collect and disseminate state-of-the-art articles and advancements from the biomaterial community in China. Original research papers and comprehensive review articles are welcome.

Prof. Dr. Mingqiang Li  
Prof. Dr. Jianxun Ding

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
