Deadline for manuscript
submissions:

closed (1 June 2023)

Message from the Guest Editor

Dear Colleagues,

This Special Issue aims to provide full-length and mini review articles as well as research papers on new bioactive compounds with proven activities in various biological screenings and pharmacological models, with a special focus on chemical analysis. As medicinal plants are an important source of bioactive compounds, special emphasis will be placed on chemical analysis and their use for various purposes. The aim is to provide a valuable source of information regarding synthesized or isolated bioactive compounds, which can be used for the further development of pharmaceuticals, foods and other industry applications.

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
