Deadline for manuscript submissions:

closed (31 January 2022)

Message from the Guest Editors

Dear Colleagues,

We invite you to contribute a full research paper or review article for peer review and possible publication in the Special Issue “**Drug Delivery Systems for Overcoming the Biological Barriers and Improving the Therapeutic Effect**”. This Special Issue will be devoted to the fundamental aspects of design of effective drug delivery systems and the potential application of these systems in different therapies, with special emphasis on overcoming biological barriers. Given the structural features and functions of biological barriers, improved therapy with drug nanocarriers will provide a better chance of mitigating the harmful effects on the human body. We believe that this Special Issue topic is very interesting and timely and hope that it will present a collection of works that will be a useful reference for scholars in the field.

Corrensstrasse 48, D-48149
Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
