### Message from the Guest Editors

The Drug Discovery for Neglected Diseases International Congress 2018 (DDNDIC 2018) will be framed in celebration of the 35<sup>th</sup> anniversary of the creation of the Institute for Drug Chemistry and Metabolism (IQUIMEFA), University of Buenos Aires—National Scientific and Technical Research Council. The 4<sup>th</sup> Scientific Meeting of the Research Network Natural Products against Neglected Diseases (ResNet NPND) will be carried out together with the DDNDIC 2018. Both events will be held simultaneously at the Faculty of Pharmacy and Biochemistry, University of Buenos Aires, Buenos Aires, Argentina.

The Special Issue is to publish the results presented at the congress, as well as the recent advances made in the field of neglected diseases. It will be focused on the discovery and development of natural and synthetic drugs for neglected diseases and other diseases having consequences in public health and of high relevance worldwide. Research works dealing with this group of diseases in the areas of natural compounds, drug design, drug synthesis, in vitro and in vivo assays, mechanisms of action, epidemiology and individual and environmental prophylaxis will be considered for publication.

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.
