Synthesis of Functional Silicon Compounds

Guest Editor:

Message from the Guest Editor

Prof. Dr. Masafumi Unno Department of Chemistry and Chemical Biology, Gunma University, Kiryu, Japan

Deadline for manuscript submissions: closed (31 October 2019) Dear Colleagues,

It is my great pleasure to be a Guest Editor of the Special Issue in this rapidly progressing field. In the last two decades, vairous new silicon compounds have been synthesized and their application to materials has also been agressively investigated. Because of the recent demand for high-performance materials (low-k, high refractive index, thermal stability, and so on), more and more chanllenges have been observed in this field.

In this Special Issue, I welcome manuscirpts regarding recent results in the synthesis, structure elucidation, properties, and application of silicon compounds, and demonstrate their potential.

Prof. Dr. Masafumi Unno *Guest Editor*

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
