Deadline for manuscript  
submissions:

**closed (30 September 2016)**

### Message from the Guest Editor

Dear Colleagues,

Every day, more and more biorefineries are gaining importance. However, the idea behind biorefineries cannot really be accomplished if it is not done in a green fashion. Thus, it is extremely important to go out of the box and to implement Anastas and Warner Green Chemistry principles into the concept of biorefineries. This Special Issue aims to mark a milestone in this field, and be a reference point for key academia and industrial actors interested in the development and implementation of novel green and sustainable ideas in the concept of biorefineries.

Dr. Rafał Bogel-Łukasik

# Special Issue

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Thomas J. Schmidt**

Institute of Pharmaceutical  
Biology and Phytochemistry,  
University of Münster,  
Corrensstrasse 48, D-48149  
Münster, Germany

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
