Message from the Guest Editors

Dear Colleagues,

This Special Issue will be dedicated to the basics of thin film manufacturing including modelling of coating growth or reactions taking place during the formation of the layer. In addition, contributions around deposition, creation, and incorporation of nanoparticles and related films for functional and tribological applications are particularly welcome. This Special Issue is open to both vacuum and non-vacuum coating manufacturing techniques including PVD, CVD, ALD, sol-gel, thermal spray, and electroplating.

Prof. Jose L. Endrino

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
