Message from the Guest Editor

This Special Issue is mainly collecting the latest original research articles as well as in-depth and forward-looking review articles in the fields of lasers, optoelectronics, photochemistry, and their applications.

Full papers, communications, and review articles presenting and discussing the most recent trends in the field are welcome.

A 20% discount will be offered for submissions before 31 August 2021.

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.
