Message from the Guest Editors

To express our gratitude for **Professor David Julian McClements's** great contributions to the research community and to emphasize his extraordinary research achievements, *Molecules* has established a thematic issue specifically dedicated to Prof. McClements. We wish to take this opportunity to invite you to contribute to this issue.

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.
