## Flavonoids from Plants to Foods: From Green Extraction to Healthy Food Ingredient

Guest Editors:

**Dr. Giovanna Giovino**

CNR-ISPA, Institute of Science of Food Production, National Research Council, Lecce, Italy

**Dr. Carmela Gerardi**

CNR-ISPA, Institute of Science of Food Production, National Research Council, Lecce, Italy

Deadline for manuscript submissions:

**closed (28 February 2022)**

### Message from the Guest Editors

Research on flavonoids from dietary sources show growing evidence of the versatile health benefits of flavonoids through in vitro and in vivo studies. This Special Issue would harvest the current advances in flavonoids, with an emphasis on green production and health aspects of flavonoids, which may provide some suggestions for researchers and for industries in developing natural health agents.

We invite you to submit manuscripts which focus on aspects related to flavonoids, such as isolation and analytical characterization, biological activities (antioxidant, health promoting, antimicrobial), and the nutritional aspects of flavonoids intake (from absorption and metabolism to functional foods/nutraceuticals).

### Keywords

- flavonoids
- green production of flavonoids
- antioxidant activity
- anti-inflammatory activity
- biological activity
- dietary flavonoids
- functional foods
- nutraceuticals
- health-promoting effects
- absorption and metabolism

# Special Issue

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical  
Biology and Phytochemistry,  
University of Münster,  
Corrensstrasse 48, D-48149  
Münster, Germany

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
