## Novel Nanomaterials: Photoelectric Properties and Their Applications in Sensors

Guest Editors:

**Dr. Marcos F. S. Teixeira**

Department of Chemistry and Biochemistry, UNESP-Universidade Estadual Paulista, Sao Paulo, Brazil

**Dr. André Olean-Oliveira**

School of Science and Technology, São Paulo State University (UNESP), São Paulo, Brazil

Deadline for manuscript submissions:

**closed (1 June 2022)**

### Message from the Guest Editors

Dear Colleagues,

Nanomaterials have attracted a great deal of attention in many applications due to their structure and unique photoelectric and catalytic properties. One active research area in nanomaterials today is the advancement in the development of sensors and nanosensors with interest in different production sectors. Among them, sensors based on nanomaterials with photoelectric properties have attracted increasing attention due to new principles of the sensor response mechanism. The purpose of this Special Issue is to collect reviews and original research articles on the activities of new nanomaterials with photoelectric properties for the development of photoelectrochemical sensors relevant to their applications.

Dr. Marcos F. S. Teixeira  
Dr. André Olean-Oliveira

## Editor-in-Chief

### Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical  
Biology and Phytochemistry,  
University of Münster,  
Corrensstrasse 48, D-48149  
Münster, Germany

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
