Message from the Guest Editors

Dear Colleagues,

The phytochemical analysis of natural products has been an important tool not only from a chemical point of view but also as a guide for the validation of their pharmacological activity. This Special Issue “Natural Products: Phytochemical Analysis and Pharmacological Evaluation” will present a collection of papers related to the phytochemical analysis of natural products from live organisms (plants, microorganisms, marine organisms, insects, etc.) in addition to their pharmacological evaluation.

At present, the natural products are receiving increasing interest from many fields of knowledge; as such, your expertise on this topic could contribute to enhancing the interest in this important thematic issue.

We cordially invite researchers working in this field to contribute original research articles, short communications, and critical review articles. Short papers on single compounds are also welcome.

Dr. Marcos Soto-Hernández
Dr. Gerardo Cebrián-Torrejón

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
