**Prof. Dr. Farid Chemat**

**Prof. Dr. Giancarlo Cravotto**

**Prof. Dr. Erica G. Wilson**

### Message from the Collection Editors

In this *Molecules* Topical Collection, entitled "Preanalytical Methods for Natural Products Production", we invite manuscript submissions that focus on the sample preparation, extraction, derivatization and development of green processing of natural products. Submissions are expected to focus on a metabolite level, but papers involving some of natural oligomers and polymers will also be considered. Both original research articles or reviews related to these topics are welcome.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
