Reactive Intermediates

Guest Editor:

Prof. Dr. Margarita Parra

Instituto Interuniversitario de Reconocimiento Molecular y Desarrollo Tecnológico (IDM), Universitat de València, Doctor Moliner 50, Burjassot, 46100 Valencia, Spain

Deadline for manuscript submissions:

closed (30 June 2012)

Message from the Guest Editor

Dear Colleagues,

The knowledge of reactive intermediate chemistry is central to develop modern mechanism and quantitative understanding of Organic Chemistry. This special issue tries to be a summary of the latest advances in this topic, both from the reactivity of the characterization point of view. We pretend to include research results in the chemistry of many types of reactive molecules as intermediates, starting from carbocations, carbanions or free radicals and continuing through carbenes, nitrenes or arynes. On the other hand, advanced experimental techniques of modern physical-organic chemistry, isolation methods and characterization of highly reactive molecules will be welcome. We invite the scientific community to take part of this project.

Dr. Margarita Parra-Alvarez

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical
Biology and Phytochemistry,
University of Münster,
Corrensstrasse 48, D-48149
Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
