Message from the Guest Editors

Dear Colleagues,

The journal *Molecules* intends to set up a Special Issue on “Review Papers in Green Chemistry” dedicated to all aspects of Green Chemistry. As the editors of the Special Issue, we are welcoming proposals for review articles covering all fundamental and application aspects in the field of Green Chemistry (theory, techniques, applications, instrumentation, up-to-date achievements, future perspectives, etc.).

Distinguished researchers from all over the world are invited to contribute to this issue. In order to avoid overlapping of topics, potential contributors/invited authors are kindly requested to submit the editors a tentative article title and 1–2-page description/table of contents for pre-evaluation.

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.
