Message from the Guest Editor

Dear Colleagues,

In this Special Issue, “Featured Review Papers in Physical Chemistry”, *Molecules* intends to publish high-quality review papers addressing the elucidation of fundamental and/or applicative aspects of cutting-edge Physical Chemistry research. We especially aim to gather state-of-the-art or perspective papers covering the many structural, mechanistic, dynamical and spectroscopical facets of systems of growing complexity, ranging from elementary processes, nanocluster formation, and nanomaterials to molecular dynamics, both in gas and condensed phases. Studies concerning physico-chemical behavior at the interface between different phases are also of interest.

Dr. Cecilia Coletti

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical
Biology and Phytochemistry,
University of Münster,
Corrensstrasse 48, D-48149
Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
