Chemical Engineering, Nanjing  
University, Nanjing 210023, China

Deadline for manuscript  
submissions:

**closed (31 October 2023)**

### Message from the Guest Editor

Dear Colleagues,

Natural and synthetic polymers are macromolecules that are broadly applied in our daily life, such as celluloses, starches, silks, polyethylene, polypropylene, polystyrene, poly(ethylene terephthalate), and nylons. Their properties for versatile applications are mainly determined by their molecular and aggregation structures. The Special Issue of this journal aims to expose the importance of structure-property relationships in polymers and specialty applications. The authors and their contribution titles are selected to cover the broad range of this field. Theories, simulations, and experiments are welcome to reflect the cutting-edge knowledge on this interdisciplinary subject. The structure-property relationship will remain the central topic in polymer physics and promises a bright future for the materials genome of polymers.

Prof. Dr. Wenbing Hu

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
