

Special Issue

Green Catalysis Technology for Sustainable Energy Conversion

Message from the Guest Editors

Given the environmental problems brought by industrial development and the rapid consumption of natural resources, the need to search for new and alternative sources of energy has become a global consensus. Low-cost, efficient green catalysis technology is the focus of the present research. This Special Issue will present the most recent and significant developments in green catalysis technology for sustainable energy conversion. Original papers on the above topics and short reviews are welcome for submission

Guest Editors

Dr. Kangqiang Lu

Prof. Dr. Weiya Huang

Prof. Dr. Bo Weng

Deadline for manuscript submissions

30 June 2026

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
