Metal-Organic Complexes: Applications in Chemistry and Materials Science

Message from the Guest Editor

Metal-organic complexes represent powerful building blocks for advanced materials with applications in chemistry, catalysis, electronics, photonics, spintronics, solar cells, medicine, and many others. Despite the paramount number of scientific publications and discoveries in the field, the challenges in the design of metal-organic complexes still exist at both the molecular and supramolecular level. This Special Issue of *Molecules* is devoted to the recent advances in the structure-based design of metal-organic complexes with a special focus on their broad-spectrum applications in chemistry and materials science. It will collect original papers or mini-reviews on the theoretical and experimental progress in the field.

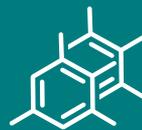

Guest Editor

Dr. Julia Romanova

Faculty of Chemistry and Pharmacy, Sofia University "St. Kliment Ohridski", Sofia, Bulgaria

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
