Phenolic/Polyphenolic Profile and Biological Activities of Natural Products

Message from the Guest Editors

In recent years, there has been an increase in the interest in natural products for the prevention and treatment of many diseases. Environmental pollution is associated with an increase in the incidence of civilization diseases such as cancer and cardiovascular diseases. Research on the biologically active compounds of natural products (plants, fungi, microorganisms) is an important and still developing branch of science. This Special Issue aims to provide a forum for the dissemination of the latest information in this area. Research on the biological and therapeutic potential of extracts from natural products, as well as research into phenolic and polyphenolic compounds, are our focus. We look forward to receiving your contributions to this Special Issue.

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
