## Advances in Nanomaterials 2023

Guest Editors:

**Prof. Dr. Antonio Di  
Bartolomeo**

Department of Physics “E.R.  
Caianiello”, University of Salerno,  
84084 Fisciano, Italy

**Prof. Dr. Guanying Chen**

School of Chemistry and  
Chemical Engineering, Harbin  
Institute of Technology, Harbin  
150001, China

Deadline for manuscript  
submissions:

**closed (28 December 2023)**

### Message from the Guest Editors

This Special Issue includes regular papers published in *Nanomaterials* in 2023, and selected papers from the 4th International Online Conference on Nanomaterials, held on 5–19 May 2023 on [sciforum.net](https://iocn2023.sciforum.net/) (<https://iocn2023.sciforum.net/>). The scope of this Special Issue is to cover the whole breadth of nanomaterials research and provide a forum for presenting and discussing new results. Contributors are requested to submit papers and presentations from the field of nanomaterials, such as nanomaterials and nanostructures, 2D materials and graphene, nanoparticles and quantum dots, nanowires and nanotubes, nanobiology and nanomedicine, nanophotonics and plasmonics, nanoelectronics and nanodevices, nanoenergy and nanocatalysis, nanofabrication, and nanomanipulation.

## Editor-in-Chief

### **Prof. Dr. Shirley Chiang**

Department of Physics, University  
of California Davis, One Shields  
Avenue, Davis, CA 95616-5270,  
USA

## Message from the Editor-in-Chief

Nanoscience and nanotechnology are exciting fields of research and development, with wide applications to electronic, optical, and magnetic devices, biology, medicine, energy, and defense. At the heart of these fields are the synthesis, characterization, modeling, and applications of new materials with lower nanometer-scale dimensions, which we call “nanomaterials”. These materials can exhibit unusual mesoscopic properties and include nanoparticles, coatings and thin films, metal-organic frameworks, membranes, nano-alloys, quantum dots, self-assemblies, 2D materials such as graphene, and nanotubes. Our journal, *Nanomaterials*, has the goal of publishing the highest quality papers on all aspects of nanomaterial science to an interdisciplinary scientific audience. All of our articles are published with rigorous refereeing and open access.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (General Chemical Engineering)
