

Topical Collection

Feature Papers in *NeuroSci*: From Consciousness to Clinical Neurology

Message from the Collection Editors

This topic collection of *NeuroSci* is dedicated to recent advances in nervous systems; neurons and neural circuits; neuroanatomy, neurophysiology; neuropharmacology; molecular and cellular neuroscience; bneuropsychology; psychiatry, cognitive and behavioral neuroscience; and computational neuroscience. It comprises a diverse selection of exclusive papers of the Editorial Board Members (EBMs) of *NeuroSci*, as well as invited papers from relevant experts. It focuses on highlighting recent interesting investigations conducted in the laboratories or clinics and represents our journal as an attractive open access publishing platform for neurology-related research data or reviews.

Bordeaux, UMR 5293, Bordeaux, France

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid
by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), PMC, PubMed,
EBSCO, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 22.8 days after
submission; acceptance to publication is undertaken in 5.3
days (median values for papers published in this journal in
the first half of 2024).
