Haematooncology, Medical
University of Lublin, 20-059
Lublin, Poland

Deadline for manuscript
submissions:

closed (25 March 2022)

Message from the Guest Editors

Cirrhosis is common, and the twelfth-leading cause of death worldwide. The major complications of cirrhosis include varices, ascites, hepatic encephalopathy (HE), hepatopulmonary hypertension, hepatocellular carcinoma, hepatorenal syndrome, spontaneous bacterial peritonitis, and coagulation disorders. Patients with cirrhosis require constant monitoring both in and outside the hospital. Internists and nurses play an important role in the management and prevention of complications of liver cirrhosis and improvement in connection between clinicians and families. Nursing care includes education about the complications of cirrhosis, prevention, and early detection through specific symptoms.

This Special Issue aims to present research articles as well as critical reviews that address challenges to see and understand the role of internists and nursing care in the treatment of patients with liver cirrhosis.

Message from the Editor-in-Chief

Nursing Reports (ISSN 2039-4403) is an international, open access journal, addressing practice and policy issues across all fields of nursing science. We invite you to contribute original researches, review articles, essays or short reports for consideration and publication in the journal. Rapid turnaround time and full open access offer the opportunity to make research results immediately available to scientific communities and the general public.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, ESCI (Web of Science), PMC, PubMed, and other databases.**

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.6 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
