### Message from the Guest Editors

Dear Colleagues,

We live in a transformative era, where the computerization of our daily lives has enabled scientists to utilize new, extensive sources of data. A significant number of these new datasets pertain to human nutrition and lifestyle.

I would like to invite you to collaborate on a Special Issue of *Nutrients* titled “Human Nutrition Research in the Data Era”. The scope of this Special Issue is very broad, encompassing research based on registers, search engine data, social media, commercially available medical devices, and more. I encourage you to submit both original research articles and review papers related to the theme of this Special Issue.

Dr. Mikotaj Kamiński
