### Message from the Guest Editors

With an increasing number of bariatric procedures performed worldwide, the significant issue of weight regain is becoming more prevalent, and long term follow up represents a major issue that revisional bariatric surgery will need to address in the upcoming years. In the literature, there is a paucity of long-term data following bariatric surgery concerning nutritional status and different deficiencies. The purpose of this Special Issue will be to evaluate different clinical series regarding the long-term weight outcomes after different bariatric surgeries. It will be equally important to analyse the patient perspectives on post-bariatric surgery nutritional supplementation, the clinical effect of different deficiencies, and also the role of new adjuvant therapy.

We are convinced that the manuscripts included in the current Special Issue will encourage various centres to report their experiences.

an Open Access Journal by MDPI

## Editors-in-Chief

### **Prof. Dr. Lluís Serra-Majem**

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Food Science)

## Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
