Microbiota and Microecological Health in Humans

Guest Editors:

Prof. Dr. Dina Bellizzi

Department of Biology, Ecology
and Earth Sciences, University of
Calabria, 87036 Rende, Italy

Dr. Patrizia D'Aquila

Department of Biology, Ecology
and Earth Sciences, University of
Calabria, 87036 Rende, Italy

Deadline for manuscript
submissions:

closed (15 March 2024)

Message from the Guest Editors

The human body is a complex microecology environment consisting of microorganisms that symbiotically dwell in different anatomic districts from the early neonatal state throughout the whole lifespan. Through the production of different metabolites, they perform many indispensable functions that define and contribute to human health. Being critically regulated by a host's genetics, as well as stochastic and environmental factors, the composition and richness of microbiota are highly dynamic and the resulting changes significantly influence physiological and pathological processes in the host. In particular, the nutritional regime exerts short- and long-term effects on microbial communities via molecular mechanisms that are still elusive. This suggests that an extensive comprehension of human–microbiota ecosystems is necessary in order to promote and maintain health, as well as to prevent or attenuate the course of the disease.

Special Issue

nutrients

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación
Biomédica en Red Fisiopatología
de la Obesidad y la Nutrición
(CIBEROBN), Institute of Health
Carlos III, 28029 Madrid, Spain
2. Research Institute of
Biomedical and Health Sciences
(IUIBS), University of Las Palmas
de Gran Canaria, 35001 Las
Palmas, Spain
3. Preventive Medicine Service,
Centro Hospitalario Universitario
Insular Materno Infantil (CHUIMI),
Canarian Health Service, 35016
Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional
Sciences, University of
Connecticut, Storrs, CT 06269,
USA

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Food Science)

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
