Deadline for manuscript
submissions:

5 November 2024

Message from the Guest Editors

Dear Colleagues,

Since oral health is closely linked to nutritional status, which determines general health, poor oral health in the elderly population has been of global concern in recent decades. “Oral Health and Nutrition in Older Adults” is a Special Issue that covers nutrition-related and oral health issues in the elderly population. We encourage scientists to submit experimental and theoretical results that shed light on the personal, familial, and/or environmental factors of nutrition and/or oral health in the elderly; associations between nutritional concerns and oral health in the elderly; and strategies to improve nutritional and oral health status in the elderly in order to optimize their quality of life and promote healthy aging. We welcome reviews and original articles related to the development of new technologies, policies, and strategies and their applications, to highlight the interrelations between oral health and nutrition in the elderly population. The dissemination of knowledge through various modes of promotion, as well as preventive strategies for oral health and nutrition, can improve healthcare practice in this specific population.

an Open Access Journal by MDPI

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Food Science)

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
