Deadline for manuscript  
submissions:

**5 November 2024**

### Message from the Guest Editor

Celiac disease (CeD) is a systemic immune-mediated disease that develops in genetically susceptible individuals. A gluten-free diet (GFD) is essential for CeD patients, and has many beneficial effects. During the disease's course, patients may face many complications. The role of a GFD in the management of the complications is controversial. The GFD could have positive effects on some complications, but some of them are irreversible. Gastrointestinal symptoms that remain despite a GFD raise further differential diagnostic questions. Personalized follow-up could help address these issues. The planned Special Issue discusses the complications of and diseases associated with CeD at diagnosis, and the effect of the GFD on these. Further clinical questions, e.g., differential diagnosis, the management of associated diseases, and personalized approaches during follow-up will also be discussed. Studies that deal with changing symptoms, levels of macro- and micronutrients, body mass index and body composition, bone metabolism, microbiome, quality of life, and dietary counselling during a GFD are welcomed. We also welcome materials related to refractory CeD.

an Open Access Journal by MDPI

## Editors-in-Chief

### **Prof. Dr. Lluís Serra-Majem**

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

### **Prof. Dr. Maria Luz Fernandez**

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Food Science)

## Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
