Deadline for manuscript submissions:

closed (5 May 2024)

Message from the Guest Editor

Dear Colleagues,

Nutrition status during pregnancy influences the health status of the newborn, and offspring can benefit from nutrient supplementation during the perinatal period (e.g., folic acid, vitamin B12 and other necessary nutrients), although dose and duration vary. Investigating the health effects of nutrition during the perinatal period and exploring molecular signal pathways and specific mechanisms is necessary in order to develop corresponding interventions to improve human health.

We are pleased to invite you to submit your research to our upcoming Special Issue: Perinatal Nutrition and Epidemiology. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: epidemiology of perinatal nutrient supplementation in the diverse worldwide population background, health effects of common nutrient supplementation, epigenetic modification of perinatal nutrition and intergenerational human health effects, as well as useful and practical nutrition interventions for improving health for different generations.

Dr. Jufen Liu

Special Issue

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Food Science)

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
