Message from the Guest Editor

Dear Colleagues,

As is well known, prebiotics and probiotics play an important role in improving human health. In the last decade, extensive studies have reported the beneficial effect of prebiotics and probiotics on gastrointestinal and metabolic health. This Special Issue aims to summarize the current situation in this field and provide more references for future research.

For this Special Issue, we welcome all narrative and systematic reviews on any aspects (e.g., clinical, in vivo, in vitro), in order to report the effect of gut microbiota, pre- and probiotics, and their products, on human health and disease.

Dr. Lorella Paparo
