### Message from the Guest Editor

Dear Colleagues,

Research to date has revealed the functional properties possessed by various polyphenols. The purpose of this Special Issue is to broadly introduce the functions of various polyphenols with health-promoting functions and the molecular basis of their functional expression. We believe that the results of the papers in this Special Issue will provide one possibility for confronting the aging society in the future. We would like to express our gratitude to the authors who contributed to this Special Issue and hope that the information obtained here will be fully utilized in the future development of preventive medicine.

Prof. Dr. Yoshinori Katakura
