Deadline for manuscript submissions:

**closed (25 February 2024)**

### **Message from the Guest Editors**

Dietary bioactives, particularly phytochemicals are recognized for their beneficial health properties, including their anti-inflammatory and antioxidant activities. Therefore, bioactives appear to be novel candidates for both pharmaceutical and nutraceutical applications. Nevertheless, some pharmacokinetic drawbacks, including reduced intestinal absorption, low bioavailability, and rapid metabolic modifications, should be assessed to exploit their therapeutical properties.

The purpose of this Special Issue is to collect and discuss the recent developments in research regarding all of the aspects of bioactive compounds that are involved in various diseases, mediated by inflammatory and oxidative processes. More specifically, original papers should focus on the implication of dietary bioactive compounds in different molecular pathways and propose modern cell and molecular biology methodologies. Furthermore, considering bioavailability as a key element to ensure the bio-efficacy of these compounds, studies on the absorption and metabolism of dietary bioactive compounds are appreciated. This Special Issue will include both original scientific researches and systematic reviews.

an Open Access Journal by MDPI

## Editors-in-Chief

### **Prof. Dr. Lluís Serra-Majem**

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

### **Prof. Dr. Maria Luz Fernandez**

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Food Science)
