2. Department of Analytical Chemistry, University of Granada, Avda Fuentenueva, 18071 Granada, Spain

Deadline for manuscript submissions:

5 September 2024

Message from the Guest Editors

Many changes in the dietary habits of the population, characterized by high intake of energy, red meat, sugars, salt, and fats and the low consumption of whole-grain cereals, fruit and vegetables, legumes, and nuts, make current food consumption patterns unsustainable from a health point of view. Along with this negative trend, it is possible to observe an increasing demand for food-based products that are capable of preventing or alleviating different diseases. Health benefits beyond the basic nutritional value are related to their composition in bioactive compounds. For this reason, the search for bioactive compounds from natural sources and the evaluation of their bioactivity is being increasingly undertaken with the purpose of helping consumers maintain or improve their quality of life.

This research topic aims to increase the knowledge of bioactive compound composition in different foods, including plants or plant-based by-products that have a potential beneficial impact on health.

We welcome reviews (systematic and narrative) and mini-reviews, original research papers (in vitro and in vivo), perspective papers, hypothesis and theory papers, methods papers, and case reports.

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Food Science)
