## Nutritional Management of Cystic Fibrosis

Guest Editors:

**Prof. Maria R. Mascarenhas**

Univ Penn, Perelman Sch Med,  
Philadelphia, PA 19104, USA

**Dr. Jessica Alvarez**

Department of Medicine, Emory  
University, Atlanta, GA, USA

Deadline for manuscript  
submissions:

**closed (15 October 2022)**

### Message from the Guest Editors

Cystic Fibrosis is an inherited disease that starts in utero. The effects are seen throughout the body, changes in the lungs, gastrointestinal tract, pancreas, and liver primarily impact nutritional status. Malnutrition and growth failure were the hallmarks of the disease. Patients with pancreatic insufficiency require pancreatic enzyme replacement therapy and fat-soluble vitamin supplements. With improvements in many areas including newborn screening, nutrition supplements, pancreatic enzymes, CFTR modulator drugs, inhaled antibiotics, life expectancy has increased. In this issue, we will review the latest information on CFTR modulators and how they may change the presentation of CF in children and adults, changes in the gut microbiome, understating the importance of lean body mass, optimizing nutritional status, pancreatic enzyme replacement therapy, bone health and micronutrient abnormalities and treatment of CF-related diabetes. Pediatric and adult providers both need to be aware of the nuances of care as more patients with CF become adults. Optimizing nutritional status, anticipating and preventing the complications of CF will result in best management practice

## Editors-in-Chief

### **Prof. Dr. Lluís Serra-Majem**

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

### **Prof. Dr. Maria Luz Fernandez**

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Food Science)

## Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
