Deadline for manuscript submissions:

**closed (5 April 2024)**

### Message from the Guest Editors

Dear Colleagues,

The theory of the developmental origin of health and disease is based on the concept that the origins of lifestyle-related disease are formed at the time of fertilization, embryonic, fetal, and neonatal stages by the interrelation between genes and the environment, including nutrition, stress, and environmental chemicals. Consequently, a suboptimal nutrition in early life, including prenatally as assessed by fetal growth restriction according to the gestational age, increases the susceptibility to the metabolic syndrome, including obesity, diabetes, insulin insensitivity, hypertension, hyperlipidemia, and complications that include coronary heart disease and stroke in adulthood.

This special issue aims to report and summarize the current knowledge on the relationship between optimal maternal nutrition and fetoneonatal wellbeing as short-term effects and health status in adulthood as long-term effects.

All types of research evidence are welcome to elucidate the impact of safe nutrition in early life.

## Editors-in-Chief

### **Prof. Dr. Lluís Serra-Majem**

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

### **Prof. Dr. Maria Luz Fernandez**

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Food Science)

## Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
