Message from the Guest Editor

We are pleased to invite you to contribute to the Special Issue of the journal *Nutrients* on the subject area of “Nutritional Surveys and Assessment of Eating Disorders”.

This research topic aims to explore emerging and precise tools for evaluating the nutrition condition of people with eating disorders. In fact, a precise tool for nutrition assessment is recognized as a cornerstone of assessing the actual nutrition condition of people with eating disorders.

This Special Issue is aimed at providing selected contributions to address this topic with a particular emphasis on how to precisely evaluate nutrition intake using innovative technologies or methods for identifying eating disorders.

Potential topics include but are not limited to the following:

Innovative methods employed for nutrition survey and nutrition assessment;

How to identify eating disorders using innovational technologies;

Comparison of dietary survey methods with traditional and emerging tools;

Selection of dietary evaluation methods for different populations;

Dietary pattern transition and its relationship to the development of chronic diseases.
