Message from the Guest Editor

Dear Colleagues,

A high-fat diet and less physical activity result in a higher energy intake and lower energy expenditure. High-fat diets, which are frequent related to obesity, are associated with many health problems, including cognition, cardiovascular and metabolic issues, non-alcoholic fatty liver disease and even cancer. However, which populations are most susceptible to the effects of a high-fat diet remain unknown. In addition, there are many unknown factors that can interact with a high-fat diet. Furthermore, the effects of high-fat diets can be inherited by offspring.

This Special Issue welcomes original research and review articles with clinical, experimental and epidemiological content concerning factors interacting with a high-fat diet and populations at risk for a high-fat diet.

Dr. Jiunn-Ming Sheen

Special *Issue*

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Food Science)

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
